## **DETAILED ACTION**

This office action is in response to amendments and remarks filed November 17, 2010. Applicant amendments filed have entered and made of record. Claims 1-16 are pending.

### **Response to Arguments**

1. Applicant's arguments filed on November 17, 2010 with amendments have been fully considered and previous rejections have been withdrawn.
2. Regarding claim 16, examiner initiated interviews with attorney of record to resolve the new issue(s), as discussed below, and to have a compact prosecution. However, this was not resolved in time and claim 16 is still stayed rejected.

### **Allowable Subject Matter**

Claims 1-15 are allowed.

Claim 16 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

### **Specification**

The specification is objected to as failing to provide proper antecedent basis for the claimed subject matter. See 37 CFR 1.75(d)(1) and MPEP § 608.01(o). Correction of the following is required: Specification does not discuss or describe the claimed terminology "non-transitory computer readable medium".

### **Claim Rejections - 35 USC § 112 2<sup>nd</sup> Paragraph**

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 16 is rejected under 35 U.S.C. §112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention..

3. Claim 16 recites the limitation "non-transitory computer readable medium" in line1.

4. Regarding claim 16: it's not clear to what does it mean in the context of this claim.

Examiner could not find any further description or definition of this term in the disclosure.

Therefore, there is insufficient antecedent basis for this limitation in the specification.

Specification is silent and does not discuss or describe this claimed terminology.

The examiner suggests that the specification be amended to include the term "non-transitory computer-readable medium" to avoid a potential objection, as ,discussed above, to the specification for a lack of antecedent basis of the claimed terminology."

### **Conclusion**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to SYED ZIA whose telephone number is (571)272-3798. The examiner can normally be reached on 9:00 to 5:00.
